Peter,

Thanks. It is unlikely that we'll have money for an LC/MS or better this year but I do want to get it on the equipment list, so that it isn't forgotten about. I don't need a quote just a ballpark figure. I was guessing between \$ 95-120K.

The quote for the GC/MS seems high? but maybe that's because it doesn't reflect a discount.

Hi Julie,

I was hoping to get the triple quad since we could do more with it and not have to worry about pure peaks. However, I wouldn't turn away an LC/MS if we were offered one and it certainly would supplement our GC/MS for drugs that yield limited information or lack a molecular ion.....not to mention it would be a giant baby step for the drug lab. Let me know if you want a quote for the LC/MS. The quote for the triple quad came in at \$275,557 assuming the 5% discount. I just asked for a generic quote to give us a ballpark idea of pricing. The other quote is for another GC/MS which came in at \$93,512.

-Peter

Hello Peter,

I'd like to take a moment and introduce myself. I am the Account Manager for Agilent Technologies in the Boston Area. As Account Manager, I am your point of contact for LC, GC, and MS sales along with any questions and/or concerns you may have.

I was forwarded your request for a GCMS and a LCMS QqQ quotation from Armand Scatena. I've attached both quotations for your review. Usually there is a contract in place that pulls a contractual discount (usually 5%). These quotations, however, did not. Should you get funded, assume a 5% discount off the list prices.

Let me know if I can assist further. If you have any specific DOA methods for QqQ, let me know and I'll see if we have an application note.

Best regards,

Damon
